Comfort

Warmth

Quiet

Dressing your home in CedarBoards Insulated Siding is like wrapping your family in a cozy blanket. Inside, you'll enjoy a quieter, more comfortable home. Outside, you'll appreciate the authentic look of natural wood, enhanced by distinctive colors and finishing touches.

The outstanding durability of CedarBoards offers superior protection you can count on for years to come. CedarBoards is a green approved product, one recognized for its environmentally friendly benefits.

CedarBoards Insulated Siding offers the advantages that come with both innovation and conservation. Your home becomes a haven of comfort and quiet, made possible by a material that supports the effort to preserve natural resources and the environment.

Innovation

Conservation

Siding: CedarBoards Double 6" Clapboard in timber blend.
Trim: Vinyl Carpentry® & Restoration Millwork®.

CedarBoards offers complete comfort – both in performance qualities and environmental benefits. You'll enjoy warmth, quiet, durability and beauty—and the knowledge that you achieved it all with a “green” product choice.

Enhanced Energy Savings

CedarBoards custom-contoured foam increases your home's energy efficiency, providing an extra measure of comfort to your interior spaces. You'll feel warmer in winter and cooler in summer. CedarBoards can increase overall thermal performance, helping to reduce heating and cooling costs.

Building Standards

Quiet Interiors

The outside world stays outside in a home sided with CedarBoards. The innovative foam backing reduces exterior noise, enhancing interior acoustics.

Double 6" Clapboard in natural clay

Protection

Water vapor that seeps into hidden wall cavities can result in mold, mildew and fungi, and contribute to wood deterioration. CedarBoards Insulated Siding has excellent breathability, so you can breathe easy. It absorbs little water and has a permeability rating of 5.0 perms per square inch. Material with a perm rating of more than 1 is not considered a vapor barrier and won't trap moisture behind the wall. It allows moisture to escape – and frees you from concerns about the structural damage and health effects caused by excess moisture.

Commitment to Sustainability

CertainTeed respects the environment through the responsible development of sustainable building products and systems. While enjoying the comfort of CedarBoards, you'll also enjoy knowing that you've made a prudent "green" building choice.

- ◆ **Uses minimal raw materials and generates zero waste** in the manufacturing process.
- ◆ **Reduces the use of natural resources** such as cedar and other woods.
- ◆ **Prevents toxins from entering the environment** because it never needs painting or caulking.
- ◆ Helps meet the stringent requirements of LEED and NGBS Green Building Standards.
- ◆ The insulating foam backing **contributes to energy conservation.**
- ◆ **Contains no phthalates or heavy metals.**
- ◆ Double 6" Clapboard – **up to 64% recycled content.**
- ◆ NGBS green approved product.
- ◆ Green Circle Certified.

CedarBoards™ XL... Long on Looks

Double 6" and Single 7" CedarBoards XL panels are designed for special areas of the home where a continuous-panel appearance is preferred.

The extended length of CedarBoards XL can significantly reduce seams for a smoother, more continuous look.

Cedar S

Classic Styles

In addition to Single 7", Double 6" wide-board, Double 4-1/2" Dutchlap and Double 4" Clapboard, CedarBoards is also available in a Board & Batten 12" wide board profile.

Natural Cedar Texture

The natural wood appearance of CedarBoards comes straight from nature. Real cedar boards are hand selected. Then, using TrueTexture™ technology, CertainTeed creates a custom mold and transfers the grain pattern directly onto CedarBoards siding panels.

Start exploring preset color combinations and create your own custom exterior with on-line, interactive tools, designed to help you "Visualize Your Home". Start now at certainteed.com/colortools

The Difference is Seamlessly Clear

Two Story Wall, 20' Wide

Extended length available in Double 6" and Single 7" profiles only.

RigidForm™

This double-thick .088" rolled-over nail hem design increases and stiffens the panel.

Straight Even Face

CedarBoards panels have a straight, even face without the concavity common to ordinary vinyl siding.

Deep 3/4" Straight-Edge Panel Projection

Wood siding crafted from newly-sawn cedar typically features a deep, panel projection.

CedarBoards™ Custom Contoured Foam

CedarBoards custom contoured foam backing increases R-value, improving the home's thermal efficiency. It also adds strength and rigidity for a solid look and feel.

Sharp Batten Edge

The straight-edged design of the batten creates a finely crafted, real-wood look.

Premium Thickness for Outstanding Strength and Durability

y Crafted

Decorative Trim

Two great choices for one authentic, real wood look.

Craftsmanship

Vinyl Carpentry®

It's easy to dress a home in personality with Vinyl Carpentry's wide array of decorative design possibilities. The look is authentic cedar. The style is all yours, with a broad assortment of trim available in colors to coordinate or contrast with CedarBoards siding. Create your look with accessories and trim specially designed for CedarBoards or with easily adapted standard accessories:

- ◆ Traditional SuperCorner™
- ◆ Standard corner
- ◆ Finish Board
- ◆ Band Board
- ◆ 3-1/2" lineal
- ◆ Inside corner
- ◆ J-channel
- ◆ Starter strip

Perfection Shingles and CedarBoards Double 6" with 7-1/4" Band Board with foam insert

Traditional SuperCorner with CedarBoards Double 4" in timber blend

3-1/2" Lineal with Crown Molding

Restoration Millwork®

With Restoration Millwork, CertainTeed offers solutions that meet the needs of both professionals and homeowners. Restoration Millwork trim makes a statement of authenticity on any home's exterior; it cuts, mills, shapes and routes like the finest top-grade lumber. But, because it's made from cellular PVC, Restoration Millwork will outlast wood.

Versatility

Available in sheets and decorative trim for custom creations or pre-made products for easy installation.

Superior Performance

Low maintenance and no worries about rotting, warping, moisture or insects.

Custom Colors

Can be easily painted with Sherwin-Williams VinylSafe™ paint colors to complement with all exterior siding colors.

Meticulously engineered and designed for precision performance, CedarBoards Insulated Siding is a choice you can trust. From the safety of an accurate installation, to the features that ensure long-term strength and durability, CedarBoards contributes to a home you'll enjoy for a lifetime.

A photograph of a modern two-story house with large windows and a balcony, surrounded by trees and a lawn. The house is illuminated by warm, golden light, suggesting sunset or sunrise. A large tree stands in the foreground, and a patio area with an umbrella is visible in the background.

Precision

Performance

Siding: CedarBoards Single 7" Clapboard in sandpiper.
Trim: Vinyl Carpentry® & Restoration Millwork®.

For strength, safety and long-term durability, nothing performs like CedarBoards. With this unique siding, the best in innovative design and engineering come together in a product you can trust for a lifetime.

Installation Innovation

CertainTeed is the only siding engineered to include an integral installation guide on each panel.

The patented **STUDfinder™** Installation system is designed to help ensure a precise installation for optimum siding performance.

Accuracy and Quality

STUDfinder is engineered to align nail slots precisely with construction standards of 16" on center, with indicator letters centered under each nail slot to make it easy to locate studs and help ensure accuracy.

Enhanced Safety

An accurate installation does more than secure the siding panels. It can also help enhance safety by assuring that nails do not impact anything located between the studs, including plumbing or wiring. Penetrating these items could result in water damage, fire or other dangers.

Fire

Water Damage

Wind Damage

Hazards

Wind Resistance

Duralock® features an oversized rigid tear-drop shape which is substantially larger than many competitor's locks. Combined with the added rigidity of the foam reinforcement, CedarBoards is highly resistant to blow-off, and is designed and tested to withstand hurricane force winds.

Protection from Insects

With CedarBoards, you'll enjoy the beautiful look of wood, without the problems caused by wood-loving insects. CedarBoards is resistant to termites and meets all applicable building code requirements for ground contact.

Security

Strength and Rigidity

CedarBoards' rigid foam backing and high-quality vinyl construction create a firm wall of protection for your home. This outstanding product also stands up to hail and other unpredictable forces of nature.

A product and company you can trust completely is hard to come by. With CedarBoards, confidence comes easily, and with CertainTeed's environmental commitment to the responsible development of sustainable building products and systems, you can be even more comfortable with your purchase decision.

The Perfect Balance of Beauty and Performance

CedarBoards is the siding of choice for homeowners who understand the benefits of balance:

Interior warmth and quiet ...

provided by an environmentally friendly "green" building product

Natural wood beauty and style

in an advanced material that requires little upkeep

Protection for your home and family

delivered simply and effectively through innovative design features.

A Unique System of Benefits

- ◆ Can increase overall thermal performance, helping to reduce heating and cooling costs.
- ◆ Custom contoured foam **provides strength, rigidity and increased R-value.**
- ◆ **Reduces air infiltration** to inhibit drafts.
- ◆ **Absorbs sound** for **reduced exterior noise infiltration.**
- ◆ Compensates for minor wall imperfections.
- ◆ Insulation treated with fire retardant and insect repellent – contains no ozone-depleting chemicals.
- ◆ **STUDfinder™ Installation System** for accurate and secure installation.
- ◆ Designed and tested to **withstand hurricane force winds.**
- ◆ **DuraLock®** post-formed lock.
- ◆ **Extended Length** profiles reduce the number of seams for a more continuous look.
- ◆ **23 low-gloss colors** with a wide variety of coordinating trim.
- ◆ **.044" premium thick vinyl** on horizontal profiles.
- ◆ **.052" premium thick vinyl** on the Single 12" Board & Batten profile.
- ◆ **Lifetime** limited warranty with **PermaColor™ Lifetime Fade Protection.**
